The Following Advantages are Claimed for the
"Brilliant" Pantoscopic Spectacles and Eye Glasses.
FIRST—That, from the peculiar construction of the Glasses and Frame, they assist and preserve the sight, rendering frequent changes unnecessary.
SECOND—That they confer a brilliancy and distinctness of vision, with an amount of Ease and Comfort not hitherto enjoyed by spectacle-wearers.
THIRD—That the material from which the lenses are ground is manufactured especially for optical purposes, and is Pure, Hard and Brilliant, and not liable to become scratched.
☞ The "Brilliants" are unrivalled for strengthening and preserving the Eye-sight, and for their lasting qualities. Every pair is stamped F. L. B., and can be procured only from Resident Agents.

PREFACE.

This volume, which is the forty-seventh (and our nineteenth) annual directory of the city of Troy, s presented to our patrons with full assurance that nothing has been wanting on our part to make it in every respect a complete and reliable guide to the business interests and citizens generally of Troy, Lansingburgh, West Troy, Green Island and Cohoes.

Every office, store, manufactory, dwelling and building whatsoever, within the limits above mentioned, has been visited by our canvassers, all of whom have had many years' experience at the business, to carefully collect the names and other information usually found in a publication of this kind.

When this work had been completed, realizing the fact that changes are taking place almost every day of the year, and desiring to have a record of all such as may occur between the time the canvass was completed and the final issue of the book, we gave notice through the press, inviting all who may have made any change in their business or place of residence, together with those who were not sure that their names had been correctly reported to the canvassers, to report the same at our bookstore without delay, where, if in season, they would receive proper attention. Therefore we cannot, in fairness, be held wholly accountable for whatever may be omitted or wrongly inserted.

It has ever been our aim to keep the price of the book at the lowest possible standard, that the greater number might feel able to purchase a copy, and thus realize the more fully its great convenience and usefulness, hoping at the same time that our sales might thereby be sufficiently increased, to make good the deficiency in price; but in this our expectations have been realized only in part or particularly in Troy proper, while at Lansingburgh, Green Island, West Troy and Cohoes, not enough patronage has been secured this year, to pay the cost to us of their departments.

We are fully aware that business generally all over the country is depressed, and that these places are no exception to the rule, yet we can't but feel that the business people in each of them, should lend a helping hand to a local enterprise which is to them of so much importance, and we are constrained to say that unless they do so by another year, we shall be obliged to drop one or all of these departments from the book.

During our late war and high prices of nearly every commodity, and while the publishers of other city directories advanced the prices of their publications almost annually, because of the increased cost of paper, printing, etc., we did so only when the increased size of the book, or matter therein contained, justified, and demanded it should be done. Annually our book is increased in size, and proportionately is the expense to us annually increased for collecting, compiling, and printing the matter, also for the paper, binding, etc., etc., and when, as this year, we do not increase the price of the book, it is equivalent to making our patrons a liberal reduction from the price of the former year.

Our advertising pages have steadily won their way to the front rank, and we assure all who avail themselves of this department that no pains will be spared on our part to merit their continuance. We not only print these cards in the most artistic and attractive manner, but we also place the names of all advertisers in CAPITAL LETTERS under all the various headings of the business departments that appertain to their several vocations. Most cheerfully do we commend those in want of goods, wares or merchandise of any and every description, to the names of our most prominent and enterprising business men found on the two following pages. The figures opposite to their names refer to the pages on which their cards may be found.

Since our last publication the Congress street bridge has been completed, and its utility been fully demonstrated. The new Music Hall, to which reference was made in our last number, has been completed. It is a handsome and substantial edifice, and reflects great credit upon the officers of the Troy Savings Bank, by whom it was built. The Troy Citizens' Gas Company have now commenced the erection of their extensive buildings on North Fourth street. The dimensions of the proposed works are as follows: Main tank 75 feet in diameter; an excavation of about 20 feet below the present surface will be required. The land purchased is 150 feet on North Fourth street and extending to T. & B. R. R. lands, about 500 feet; main building about 140 feet long and 65 feet wide, three other buildings connecting with it. The works will probably be in full operation by the first of next January.

It has been our custom since the fortieth issue, to note the deaths of those of our citizens whose names appeared in the first directory, 1829. Our record for the past year comprises the names of some of our most worthy and respected citizens, as follows:—

John W. Mackey, Clarissa Gurley, Luther McCoy, Day O. Kellogg, Joseph W. Churchill, Waters W. Whipple, Enoch Jackman, Levi Munro, Rev. Mark Tucker, Hanford N. Lockwood, and Luke Lockwood.

We renew our thanks to the public generally for the readiness with which they have furnished our agents the required information, and especially do we thank those who, as advertisers or otherwise, have encouraged us by the more substantial aid.

WM. H. YOUNG,

TROY, *June* 1875. Nos. 8 and 9 First street and 214 River street.

STREET DIRECTORY.

GIVING the name of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Second street No. 168 comes, you look at Second street, on page 13, and find that Liberty street crosses at 158, and Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

REQUIREMENTS FOR ADMISSION.

Previously to examination the candidate must present testimonials of good moral character to the Director of the Institute.

For admission to Division D, at the opening of the Winter Session, the candidate must be at least sixteen years of age, and pass satisfactory examinations in Arithmetic, Geography, English Grammar, including Spelling; six chapters of Davies' Bourdon's Algebra, and five books of Davies' Legendre's Geometry. For admission to advanced standing, at the opening of either the Winter or Summer Session, the candidate must be correspondingly older, and pass satisfactory examinations in the same, and also in all the previous studies of the Division which he proposes to enter. These examinations are extended and rigorous, including both Principles and Practical Examples.

SESSIONS AND VACATIONS.

The Scholastic year is divided into two Sessions of nineteen weeks each. After the first, or Winter Session, there is a vacation of one week; and after the Second or Summer Session, there is a vacation of thirteen Weeks.

The Scholastic year of 1875-76 will commence on the 16th of September, 1875.

The Annual Register, giving full particulars, may be obtained at WM. H. YOUNG'S Book Store, or from

TESTIMONIALS.

Having attended an examination in Mathematics in Prof. Willson's school, I take pleasure in expressing my great satisfaction with the manner in which it was conducted, and with the excellence of the result. The thorough knowledge of principles exhibited by the members of the class, and their ready command of them in practical application. were a sufficient indication of the discipline they had received in this department of their training. I cordially recommend the school as one well worthy of general patronage.

TROY, JUNE 30, 1859.

DASCOM GREENE,
Prof. Mathematics &c., Rens. Pol. Inst.

It is with great pleasure that the undersigned, having attended an examination in the classics, held at Troy Academy, on the 7th of June, 1864, express their appreciation of the results of the training under Prof. Willson. The proficiency, both in the Latin and Greek languages, attained by those who received instruction from him, their familiarity with the various forms, and their exactness in translation testified in no doubtful manner to the diligence and tact of their instructor. It should be stated in connection with the above, that the recitations were from portions of the works selected by the committee at the request of the Principal, and that no opportunity was given for any other preparation than that already furnished by the discipline of the session.

Ward Boundaries.

The city is divided into five wards bounded and described as follows:

FIRST WARD.

All that part of the city included within the following lines, to wit: Commencing at a point in the Mohawk river, where the center line of Vliet street extended, intersects the boundary line of the city, thence westerly along said line and the center line of Vliet street to its intersection with the Erie canal, thence southerly along the center of said canal to the center line of Cataract alley, extending westerly to the Central railroad, thence westerly along said line to said railroad, thence northerly and westerly along the center of said railroad to its intersection with the center of the Boght road, thence westerly along said Boght road to the western boundary line of the city, thence northerly and easterly along the boundary line of the city to the place of beginning, shall comprise the first ward.

SECOND WARD.

All that portion of the city comprised within the following lines, to wit: Commencing at a point in the Mohawk river where the line of Vliet street extended, intersects the boundary line of the city, thence easterly and southerly along said boundary line and the center of the south branch of said river as it flows easterly of Simmons' island to a point directly east of the south end of said island; thence, in a direct line, to the point of intersection of the center of Pine street with the center of the Champlain canal, thence along the southern boundary

line of the second ward of the village (now city) of Cohoes, to its intersection with the Erie canal, thence northerly along the center of said canal to the center of Vliet street, thence easterly along Vliet street and the line of Vliet street extending to the place of beginning, shall comprise the second ward.

THIRD WARD.

All that part of the city comprised within the following lines, to wit: Commencing at a point in the center of the south branch of the Mohawk river, directly east of the south end of Simmons' island, thence southerly along the center of said south branch to a point where the center line of Cedar street extended easterly intersects the same, thence westerly along said line and thence westerly along said line and the center line of Cedar street to the center of Saratoga street; thence in a direct line, to the center line of Columbia street where it intersects the center line of Mohawk street; thence westerly along the center line of said street to the center line of the Erie canal; thence northerly along the center line of said Erie canal to its intersection with the center line of Cataract alley, extending in a direct line to the center line of the New York Central railroad; thence easterly along said line of Cataract alley, and the southerly boundary line of the second ward of said city as hereinbefore defined to the place of beginning, shall comprise the third ward.

FOURTH WARD.

All that portion of the city lying south of the southerly line of the third ward and south of the center line of Columbia street extended, to the western bounds of the city, shall comprise the fourth ward.

FIFTH WARD.

All that part of the city included within the following lines, to wit: Commencing at a point where the center line of the Erie canal intersects the center line of Columbia street, running thence northerly along the center line of the Erie canal to a point where it intersects the center line of Cataract alley extended, in a direct line, to the center of said canal; thence running westerly, in the direct line of Cataract alley extended, to the center of the track of the New York Central railroad; thence northerly along the center line of said railroad track to the center of the Boght road; thence running westerly along the center line of said road, to the westerly bounds of the city, thence running southerly and along the west bounds of the city to the center line of Columbia street; thence easterly along the center line of Columbia street to the place of beginning, shall comprise the fifth ward.

This Company owns the entire water-power of the Mohawk River at Cohoes, embracing the celebrated Cohoes Falls. Aggregate fall one hundred and twenty feet, giving nearly ten thousand horse-power. The Company's gate-house and dam are among the finest structures of the kind in the United States.

The canals are so constructed as to give a succession of falls from one canal to another, varying in height from twelve to twenty-five feet. The power is leased by the Company, with land for factory buildings, in perpetuity, at an annual rental of about twenty dollars per horse-power, and considering the locality, is the cheapest in the country. It is an unfailing power, and during the past few years, while most of the water-powers in the country have failed for a time, Cohoes has had an abundant supply, without one minute's stoppage. About one-third of this magnificent power is unappropriated, and appurtenant thereto are some of the finest factory sites to be found anywhere.

Cohoes is situated at the confluence of the Mohawk and Hudson rivers, about four miles from Troy and ten from Albany, and is eligibly located with reference to New York and other markets, and possesses superior advantages for transportation to market, either by river, canal, or railroad, having two canals and two railroads running through it. It is a thriving young city of nearly twenty thousand inhabitants, and contains some of the finest cotton and other factories in the United States.

Troy Fire Alarm Telegraph.

Andrew D. Collins, Supt., office at Arba Read Steamer House, Third cor. State street.

Directions to Key Holders.

Upon seeing a fire in your immediate vicinity, or having positive information of a fire near your signal box, unlock the door, and pull the hook all the way down and let go of the hook; then wait a few moments, and if you hear no ticking in the box, or alarm on the bells, go to the next nearest box to the fire.

Never open the box or touch the hook except in case of fire.

Never pull the hook if the bell in the box is ticking.

Never give an alarm except from the box nearest the fire.

Be sure the box is locked before leaving it.

Never let the key go out of your possession, unless to some responsible person for the purpose of giving an alarm, or when called for by the Superintendent.

The number of the box signaling the fire will be struck upon the gongs of all the engine houses; also upon St. Paul's, St. Peter's and St. Mary's church bells. For example: to announce an alarm from Signal Box No. 24, the bells will be struck TWICE, and, after a pause of seven seconds, will be struck FOUR times; thus 2—4.

The number of the box will be repeated at intervals of twenty seconds until a sufficient alarm has been sounded.

Money Order and Registry Dep.—GILBERT D. ROBERTSON, *Clerk.* GEO. CAMPBELL, *Asst.*

Stamp and Stamped Envelope Department.—E. W. BURRAGE, *Clerk.*

There are four deliveries daily between Hoosick and Ida streets. Carriers leave the office as follows: At 7.30 A.M., 10.30 A.M., 2.30 P.M. and 5 P.M. Two deliveries, viz.: at 7.30 A. M. and 2.30 P.M., in Fifth, Sixth and Tenth Wards. Letters collected from street boxes on return from each trip. In addition to the aboved-named deliveries, special deliveries will be made on the arrival of every important mail, on River street between the bridge and Ferry street, on Fulton street and on Broadway.

☞ This mode of delivering letters is equally as safe and expeditious as delivery at the Post Office. It also saves the time and trouble of calling at the Post Office after the arrival of each mail.

Sending Money by Mail.

Money should never be enclosed in an ordinary letter. The Post Office Department has devised two methods for the safe transmission of money, one of which should be invariably used. A list of money order offices will be found at the Post Office. When the office to which it is desired to send money is not a money order office, persons should avail themselves of the provisions for Registering Letters. Letters may be registered and thus sent with safety to any Post office in the United States, Canada, Great Britain, and most foreign countries at a trifling cost.

FIVE PER CENT INTEREST ALLOWED.

RULES AND REGULATIONS.

This bank shall be open for the transaction of business every day (Sundays excepted), from 10 o'clock A. M. to 2 o'clock P. M., and during such other times as the Trustees may order.

The rate of interest shall be 5 per cent per annum, and shall be computed on the first Mondays of January and July in each year, from the first day of each month, on all sums deposited during that day, and on all sums deposited during the preceding month, after the first day. The interest so computed, shall be payable on the first Mondays of January and July, in each year. If the interest is not drawn out when due, it shall be added to the principal, and shall also draw interest, and at whatever time money may be withdrawn, interest will only be allowed on such sums withdrawn up to the first Monday of January or July immediately preceding.

The Steamers of this line are furnished with neat and elegant *Family and State Rooms, and Berths*, and are replete with all the comforts and conveniences that can be desired by the traveler. Baggage taken free to and from Cars and Boats at Troy. This route offers special inducements to parties of pleasure as well as business men traveling between the North and New York in the heat of Summer, by which the monotony of a long Rail Road ride, and the annoyance of dust in crowded and noisy cars are all exchanged for a quiet, pleasant and expeditious Steamboat Ride.

Leaving New York, from Pier 49, N. R., foot Leroy St., arriving at Troy in time for all trains going North, East and West.

Leave Troy, foot of Broadway, on arrival of trains of Rensselaer & Saratoga, Troy & Boston and connecting Rail Roads, arriving in New York in time to make sure connections with all Trains South and East.

We call your attention to the above cuts representing our celebrated ROLL-TOP DESK, which we manfacture and sell to Banks, Insurance Companies, etc. It is the best arranged Desk we have ever manufactured. By simply pulling the top over, the papers, books, &c., are covered; it also locks all the drawers. It has slides to pull out over the drawers, and is finished complete on the back, so it can be placed in any part of the room. They are made of the best coal-fire seasoned stock, and warranted not to shrink or crack. Should you require a nice desk, we should be pleased to receive your order.

BOTTLING HOUSE AND OFFICE.

STAR SPRING.

For a period of over half a century, the water of this spring has been favorably known to the citizens and visitors of Saratoga, and yet it was not until 1862 that its real merits were fully developed. Owing to the great amount of IODINE, with which the water is charged, it was always held in high esteem by invalids, especially those suffering from Chronic Rheumatism, Scrofulous Complaints, Cutaneous Eruptions, &c.

An analysis of the water was soon after made by PROF. CHANDLER, one of the best analytical chemists of the country, which demonstrated conclusively, that in wealth of mineral matter it far surpasses any of the other fountains of Saratoga. As a BEVERAGE it has no superior; as a CATHARIC it is unsurpassed; and as a TONIC and DIURETIC it is second to none yet discovered. In view of the facts stated, it is claimed that the Star water will secure—

1st. All the benefits or advantages that can be derived from the use of any other of the waters of Saratoga.

2d. That it is vastly superior to any other in the treatment of diseases where the use of Iodine is desirable.

3d. That owing to the greater quantity of Carbonic Acid Gas, with which it is charged, it will preserve better and longer bottled than any other now known.

4th. That there is no natural mineral fountain in Saratoga, nor in the world, as yet known to science, that is so richly charged with health giving and health preserving properties.

ANALYSIS—By Prof. C. F. Chandler.

Chloride of Sodium	378,962 grs.	Bicarbonate of Magnesia	61,912 grs.
Chloride of Potassium	9,229 "	Bicarbonate of Soda	12,662 "
Bromide of Sodium	55,65 "	Bicarbonate of Iron	1,213 "
Iodide of Sodium or Iodine	20,000 "	Silica	1,283 "
Sulphate of Potass	5,400 "	Phosphate of Lime, a trace	———
Bicarbonate of Lime	124,459 "	Solid Contents, in a Gallon	615,685 "

Carbonic Acid Gas, 407,55 cubic inches in a gallon.

☞ A careful comparison of the foregoing analysis with those of the other springs of Saratoga is requested. Such an examination will convince the most skeptical that if there is any virtue in these mineral waters, the Star fountain possesses them all in a pre-eminent degree.

From Rev. THEODORE L. CUYLER.

SARATOGA SPRINGS, N. Y., Aug. 15, 1867.

After eighteen years of constant experience in the use of the Saratoga waters, I do not hesitate to give preference to the Star Spring as the most active and beneficial catharic I have ever found here. "It works like a charm." I keep a supply of it at my own home, and when my system becomes disordered, and my liver grows sluggish in its action, a bottle or two of this capital water restores me without the use of any other remedy. May yours be the "Star that never sets." Faithfully yours,

THEO. L. CUYLER.

SARATOGA SPRINGS, April 14, 1869.

Twenty years since I was taken with kidney complaint and gravel. I suffered the most excruciating pain at times, for years. I had a surgical operation, took different kinds of medicine without success. After years of fruitless effort to recover my health I went to Saratoga Springs scarcely able to move, was unfitted for any kind of business. I used the Saratoga Star Spring water, and began at once to improve, and in six weeks was able to perform a full day's work, and now for five years have had none of my former troubles, and am entirely well.

JOHN SHIPMAN.

[From Editors and Publishers of New York Independent.]

The Star Water has been a favorite with us since the moment of its introduction to our notice, and after a fair trial of it beside other mineral spring water, we prefer it, without hesitation, as the best within our knowledge. It is the most easy and healthy in its effects, yet the most powerful in general action, its agreeableness to the taste, as well as its admirable qualities for bottling, will always make it one of the most desirable for general use.
